

Where can you use Unfilled and Tumbled Travertine Tiles?

You have made a fabulous choice.

You have gently caressed the cool unique natural stone of unfilled and tumbled travertine and you know you want it. Somewhere.

You want its unique earthiness to stand out in your home, knowing the luxurious effect will be the envy of others.

You have fallen for the natural effects of the travertine stone, you are attracted to the one-of-a-kind unfilled and tumbled raw beauty of each tile.

You want it.

Travertine Tiles will transform your outdoor or indoor area. The power and strength from the heat of the volcanic magma that created the distinctive natural stone over centuries is now locked in its pores, colours and patterns and will create an unforgettable impression to any area.

And the options of 'where' are endless.

The Shell White unfilled and tumbled travertine tile will make the blue waters of your pool extra inviting, particularly on the hottest of our Australian summer days. Finishing with the Shell White tumbled edge pool coping tile will add an extra sparkle to your travertine tiled pool area, complete with an impression of luxury found only in a high-end hotel.

The Silver Oyster Travertine Unfilled and Tumbled tile would be a fabulous choice to create a stand out feature and conversation piece across your outdoor living area. The unusual patterns that have been created by mother nature over thousands of years will give any area intrigue and mystery.

Create a haven in your backyard or a centrepiece that draws the eye with a pebble and travertine tiled mosaic feature. Have a little fun mixing the tones of blues, greys, beiges that work superbly with the rustic earthiness surfaces of the unfilled and tumbled travertine tile. You will want to leave your blinds open just to enjoy the view in your own backyard haven!

And there are your indoor areas as well to contemplate. Have you considered the Silver travertine tile for your entry, hall or kitchen areas? The blue grey patterns in the natural stone will accentuate a wide range of décor colours and furniture pieces. It is guaranteed to bring a chic warmth to your living spaces.

Create a statement in the front area with a travertine tiled path that leads to your welcoming door. The unfilled and tumbled travertine tile are a perfect choice to bring some love and attention to this sometimes forgotten, yet important area of your home.

Travertine tiles are renowned for their durability and ease of repair. The unfilled and tumbled travertine tiles are easily maintained with an application of a penetrating sealer and barrier surface sealer with installation and a periodic application of a stone-sealing agent over its lifetime. It makes them a perfect choice for outdoor areas as well as some your indoor spaces too.

As one of the oldest building materials in existence you know it has been tried and tested. Its unique raw beauty brings a sense of prestige and style to any space. The tile's country of origin are reflected in the colours of greys and off-white hues from Greece to the tans and beiges of its Turkey beginnings.

Every unfilled and tumbled travertine tile has its own subtle swirling surface effect that make it a feature across the living areas of your home, especially entry ways, entertaining areas, pool and wet areas of your outdoor spaces.

Creating travertine tiled areas in your home will be a wise investment that you will enjoy for years to come. What is stopping you?
